

CARDIOLOGIST

CVI DR SUSAN KURUVILLA

3 Consults & 3 Cardio-versions

Monday 12/10/15 @ 11:50

$\frac{1}{4} \frac{1}{2} \frac{3}{4}$

10 min \$155, she mostly chatted about recent Europe holidays!

Follow up to Cardioversion 21/8

QTs too high, told Susan I was having LFT, TFT... next week. If result doesn't improve I will have to come off Amiodarone. (?)

TESTS

INR Mon 12/10 = 3.9 - $1\frac{1}{2}$ 3 3 3

BP 122/62 @ GP 10:00

Monday 03/08/15 @10:50

TESTS SINCE:

LFT + TFT 10/06/15 - OK

INR Today 03/08 (result not rec until after consult) = 2.6 - Flexi 3

BP 159/78 @ 11:00

Tues 28/07 - Racing AF (7hrs)

7am - 2pm. Cough medicine.

Ceased. BRONCHITIS. 29/7 Wed -

Fever 37.8 31/7 Fri - Ventolin,

diarrhoea - now. 2/8 Sun - 1pm

RPH GP CLINIC re: diarrhoea. May be from Augmentin, don't take last 2 pills but maybe from virus spreading to gut. Did stool sample.

SUSAN: I still sounded chesty, do steam inhalations, buy Yakult. Ok stopping Augmentin Duo. Did BP & listened to heart/lungs - all good.

ME: I had an unexpected but no charge ECG.

SUSAN. ECG good to go

**Monday 16/02/15 @ 1:10 10min
\$155**

TESTS SINCE:

ECHO Tue 25/11/14 - OK same

LFT + TFT Wed 31/12/14 - Good

INR Wed 4/2/15 = 2.7 - Flexi 3, 2,

**BP 145/79 P 66 9:48am today after
32min walk**

ME: AF Sun 18/1/15 @ 3:45am

**CARDIOVERSION [6] Tue 20/1/15
@ 12:30pm Cardio Michael Davis &
Anaesthetist Patrick Colman**

**Q. Any other drug option than
Amiodarone?**

**A. No. Cardioversions are still my
best option unless I start having
them weekly.**
