

HOLLYWOOD PRIVATE HOSPITAL

CARDIOLOGIST: Dr Susan Kuruvilla

ANAESTHETIST: Dr Harmeet Aneja

CARDIO-VERSION

ADMISSION 21/10/13 2.30pm

**Monday DISCHARGE 9pm after
food & INR & DOSE**

Procedure scheduled for 7-7.30pm

As previously, no department knows what the other is doing. I was moved 3 times, from ASSESSMENT to DAY SURGERY to THE CARDIO VASCULAR UNIT Greg was not allowed to accompany me. I did not like that he was not kept up to date with where I was or at what time I was "going under"

Harmeet arrived before Susan & inserted a cannula in my left forearm, he was complementary regarding my keeping my arm still & asked me if I minded him putting

the electro pads on my chest & back, no worries. Went under quickly & out of AF on 1st try - good! Greg finally was found & I had a cup of tea as did he, he had sandwiches & tea earlier as well, but his were edible, mine were heart friendly - dry, barely able to swallow. I was discharged 9ish.

Took Warfarin + Irbesartan after Cardio-version.

INR after procedure tonight **2.9 stay on same dose.**
